

Analog Panphone Series 4

Antivandal Analog Intercom

Antivandal Intercom for standard analog extension, of high strength and durability with piezoelectric buttons. For indoor or outdoor use.

These intercoms allow automatic dialing to extension on standard PBX by pressing the mechanical pushbutton or dialing on Keyboard.

Versions of **Analog Panphone** are available for different needs: with numeric keypad or one button or versions with or without IP Color Camera.

They can be used as Intercom or access control with code access by dialing directly on keyboard for the case of versions with Keypad.

Available Versions:

- ✓ Surface or Flush mount
- ✓ Numeric Keypad or One Button
- ✓ With IP Color Camera

They have 2 dry contact relays that operate independently, for connection of electric gates, which can be activated from remote extension or on the same keyboard.

They can also be activated from external devices such as card readers, biometric readers, etc.. In addition they have digital inputs that can be connected to switches and sensors.

Thanks to the IP55 casing and installation versatility, it facilitates the use in outdoors and in hygienic environments that requires constant cleaning.

They operate in standard PBX via analog extensions.

They works with all telephone PBXs that have conventional analog extensions, which allows clients to use the existing telephony infrastructure to add intercom capabilities.

Surface
187x104x32mm

Flush Mount
217,41x128,8x8,6mm
